

# Two Step Synthesis

Pre-lesson assignment – Textbook Pg 238-243

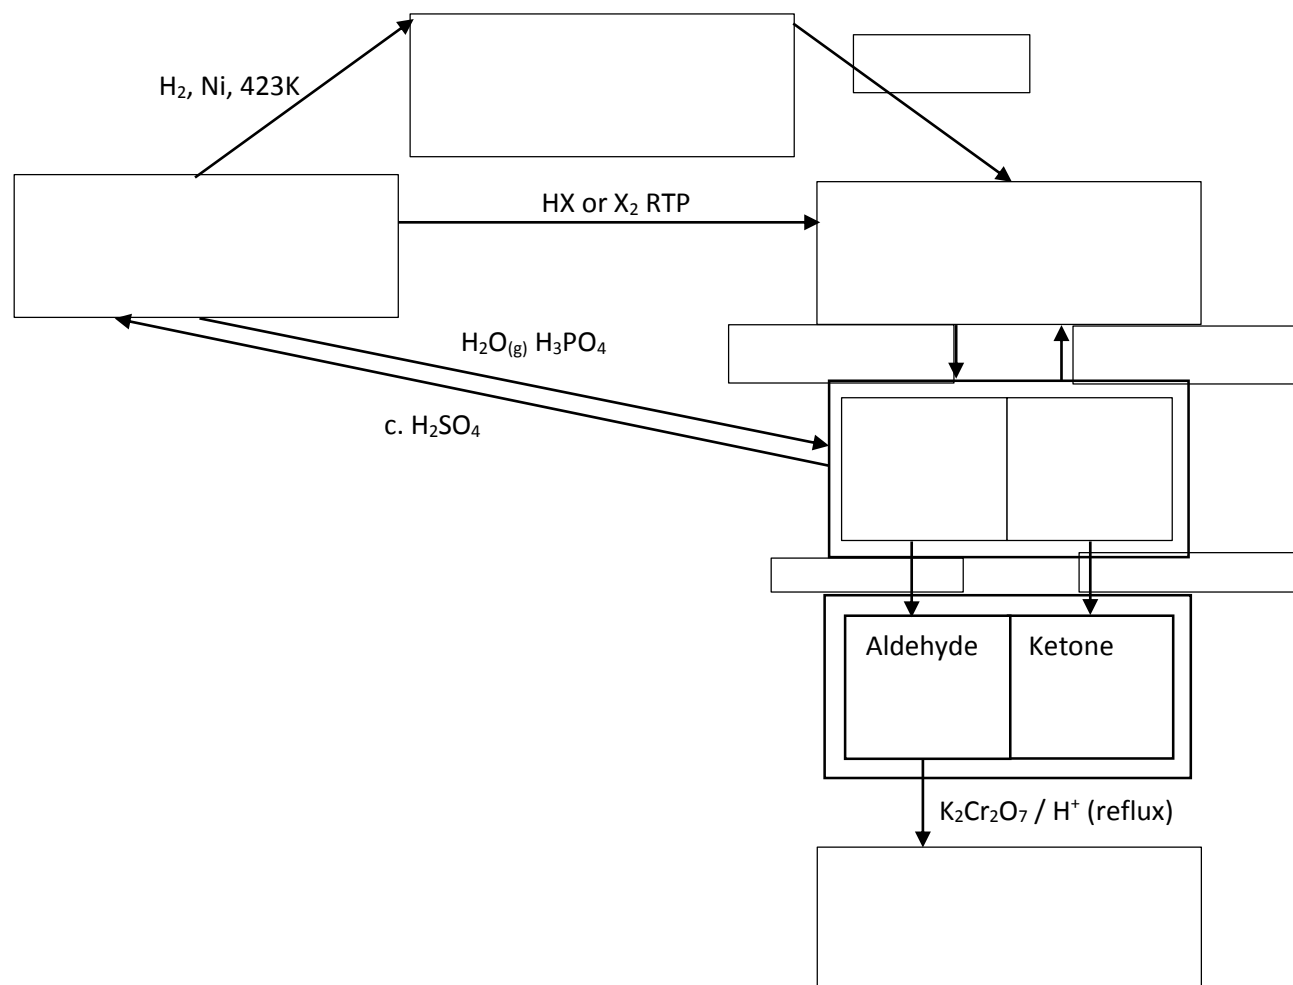

Define the following key words:

- Target molecule

Make notes on two step synthesis

Use the following questions as a guide

1. Complete the diagram below:

2. Describe how you could make butanal from 1-chlorobutane in two steps
3. Describe how you could make propanone from propene in two steps.

## Summary Questions

You should now be able to complete and mark the summary questions on p243 before the next test.
